Canvas

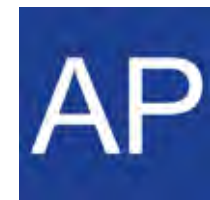

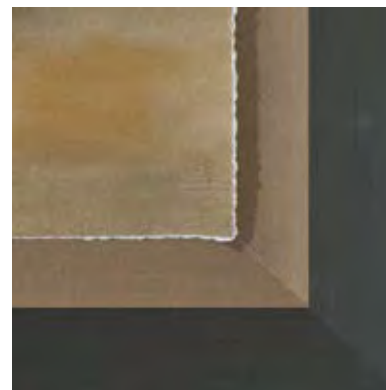

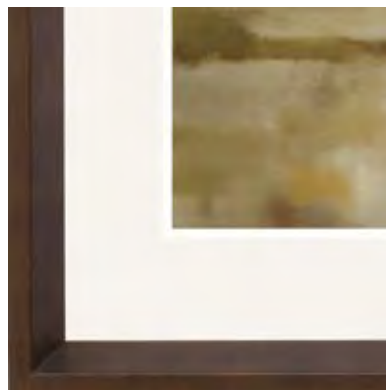

Framed
Canvas

Our thick cotton canvas is hand wrapped around a solid wood stretcher bar. The canvas comes coated with UV semi-gloss finish making it very durable to many different environments as well as preventing fading. Our canvases come with hanging hardware.

Using one of our hand wrapped canvases you can choose one of our many frame options for a nice touch. The product is finished with hanging hardware.

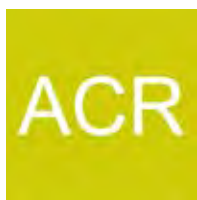

Print

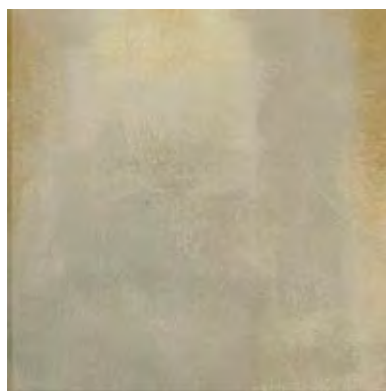

Artist
Paper

The standard Print comes with a semi-gloss finish. This traditional application is a smooth paper print mounted behind a mat and placed under glass and then framed. The product is finished with a dust cover on back and hanging hardware.

Art Paper is a thick, natural white colored cotton paper. The textured paper comes with either a deckled or straight edge and is then floated on either a matboard or linen liner. After the product is placed under glass and framed, it is finished with a dust cover on back and hanging hardware.

Acrylic

The Acrylic is a durable solution with a contemporary feel. Images are printed directly on to a 3/16 inch piece of acrylic and sealed. A wood frame is attached for hanging hardware and support.

Art Classics has selected the most popular intaglios for each size group. After choosing the intaglio(s), we will use the following materials to create a simple yet elegant way to present the art. They are gold leafed frame, gold leafed fillet, ivory mat, and a muslin background to mount the intaglio.
