Art Classics Ltd. Launches Exclusive Collection with Biltmore®

Artwork and wall decor manufacturer Art Classics Ltd., will introduce a new collection of matted and framed images in collaboration with Biltmore. The exclusive 46-piece collection presents reproductions of an array of original engravings, etchings, and prints from George Vanderbilt's private library and art collection at Biltmore in Asheville, NC.

Known as a passionate reader and collector of books, George Vanderbilt created a magnificent library at Biltmore to house about 10,000 volumes from his personal collection of more than 23,000 books. With topics ranging from architecture to zoology, the subjects reflect Vanderbilt's keen intellect and wide-ranging tastes. The books in the Library are at least 125 years old with some being antiques when Vanderbilt purchased them. The books are in excellent condition and there are volumes that may not be in print anymore.

"Our vision for this project was to bring George Vanderbilt's most notable books to life while selecting subjects that will resonate with our customers," explains Pat Schmidt, President, Art Classics Ltd. "We had the exceptional experience of working with Biltmore's Museum Services team to look through these precious books with many being first editions. We are excited and honored to showcase the Biltmore Art Collection."

Art Classics has partnered with Biltmore to faithfully reproduce a selection of breathtaking original works that are as vivid today as they were when first bound in leather and placed upon the Library's shelves for Vanderbilt and his guests to enjoy. The Biltmore Art Collection presents architectural features, delicate botanical studies, masterpieces from beloved artists, and much more. Distinct design elements of hand applied gold and silver leafing, archival paper with 125-year life time rating, custom created silk and Belgium linen mat boards, and exquisite frames provide a timeless look for today's homes.

THE TIGHTROPE: The precision and tension of the performance is highlighted against a background of audience members who are only peripheral to the skill and passion of the pair in the foreground.
